

Singapore National Memory Championships 2019

Rules & Regulations

Random Numbers

Event:

All the participants will be given one A4 sheet printed with 1000 random single digits on the sheet. There will be 40 digits in each row and there will be 25 such rows. Participants are required to memorize as many numbers as they can.

Timing:

This is a 40 minutes event. Time allotted for memorization is 10 minutes. Time allotted for written recall is 30 minutes.

Scoring:

Every digit correctly recalled in position will be awarded 1 point. If there are 9 errors or more in a line, no points will be allotted for that line.

Note:

Blank spaces left between the numbers are considered as error for scoring purpose.

Only for the last row: If the last row is partially complete and all of the digits are correct, then the points awarded will equal the number of digits recalled. If there are 8 errors or less between the numbers (this includes blank spaces), then the points awarded will be equal to the number of digits recalled correctly. For 9 errors or more in the last row, 0 point is awarded for the last row.

Sample:

Row 1 0 0 1 1 2 2 3 3 4 4 5 5 6 6 7 7 8 8 9 9 0 0 1 1 2 2 3 3 4 4 5 5 6 6 7 7 8 8 9 9

Row 2 0 0 1 1 2 2 3 3 4 4 5 5 6 6 7 7 8 8 9 9 0 0 1 1 2 2 3 3 4 4 5 5 6 6 7 7 8 8 9 9

Random Words

Event:

All the participants will be given four A4 sheets (Question paper). Each sheet contains 100 random words serially numbered. In each sheet the words are presented in 5 columns with 20 words in each column. The participants are required to commit to memory as many words as they can in the allotted time.

Timing:

This is a 40 minutes event. Time allotted for memorization is 10 minutes. Time allotted for written recall is 30 minutes.

Scoring:

The order of the words is very important. Every word written in the correct place will be allotted 1 point. Every word written in the correct place, but with a spelling error will be given half a point. If there are 5 errors or more in a column, no points will be allotted for that column. The scoring will be done column by column and not by rows.

Note:

Blank spaces left between the words are considered as error for scoring purposes.

Only for the last column: If the last column is partially complete, a point is awarded for each word if all are correctly spelt. If there are 5 errors or more in the last column, no points will be allotted for that column. Blank spaces left between the words are considered as error for scoring purpose.

Random Images

Event:

Participants will be given 8 pieces of A4 sheets (Question paper). Each sheet contains 10 rows of 5 images. The participants are required to memorize the sequence of image for each row. After which participants are given the corresponding number of recall sheet (Answer paper) with the sequences of image of each row jumbled up. The participants will proceed on to indicate the correct sequence by numbering each image from 1 to 5 for each row.

Timing:

This is a 40 minutes event. Time allotted for memorization is 10 minutes. Time allotted for written recall is 30 minutes.

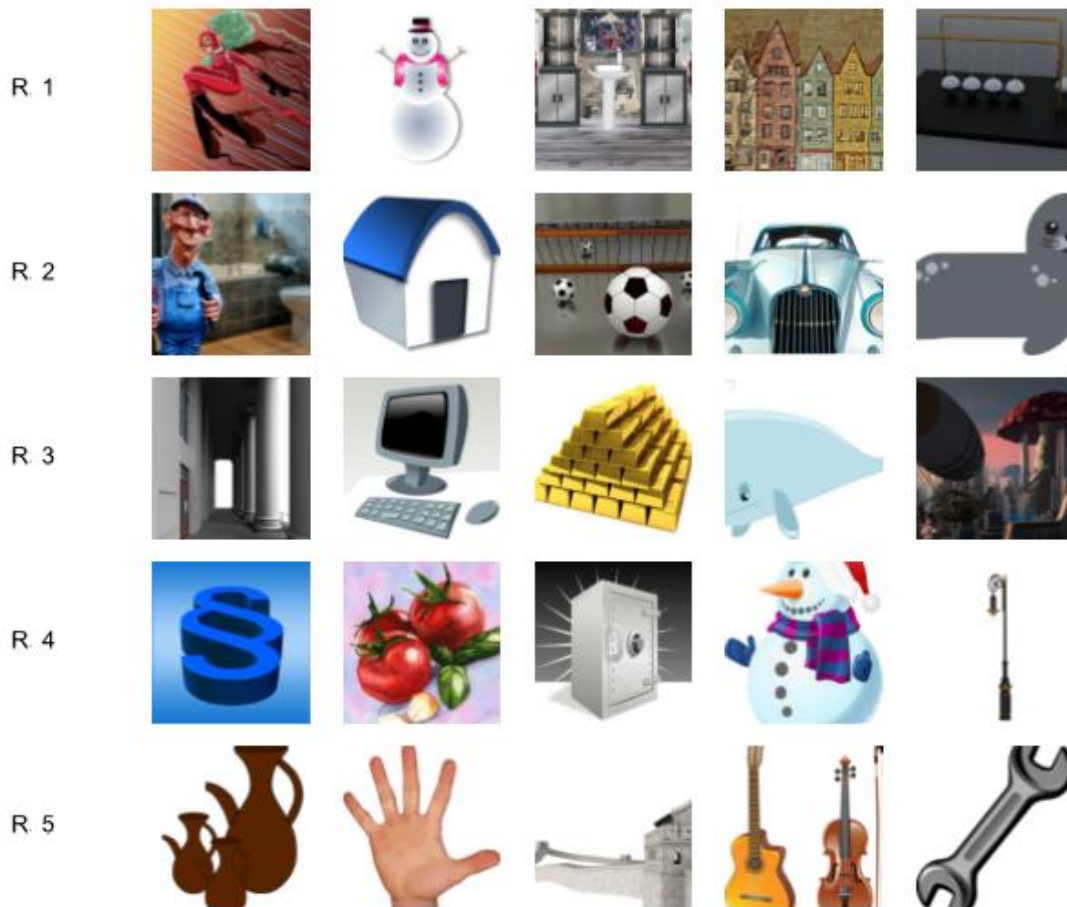

Scoring:

Every correct row will be awarded 5 points. For every row with mistakes, 1 points will be deducted from the final score.

Note:

E.g. the participants got 9 correct rows and 1 wrong row, final score will be $(9 \times 5) - (1 \times 1) = 44$ points
